

Science/Engineering Scrounge List!

Throughout Investigation Station, Science City, and Science taught in the classrooms, we will be using everyday stuff for our experiments and engineering challenges. Below is just a sample listing of **cleaned, recycled** items that we could use, but anything you can recycle and save is APPRECIATED. We are not asking you to purchase anything new. **Please send items that can be safely transported to Ms. Lin in Investigation Station before or after school.** No sharp edges, please. THANKS for your help!!

CONTAINERS/LIDS

Plastic jugs

Plastic lids and caps

Water bottles*

Liter and 2-liter bottles*
